

Resilient Urbanism: Navigating Sustainability and Community Dynamics

© KE ZHUANG / E+

This Collection invites research that explores the intersection of sustainability, resilient urbanism, and community dynamics. We encourage submissions that investigate strategies, frameworks, and case studies aimed at enhancing urban resilience and fostering a sustainable development of cities and communities, emphasizing the importance of community engagement in shaping the cities of the future. This initiative contributes to advancing SDG 11: Sustainable Cities and Communities and SDG 13: Climate Action.
